Ameiva ameiva

Ameiva ameiva is a large, fast, diurnal teiid from South America. The males are green with a blue belly and grow to 50 cm. The species is omnivorous, likes to dig and needs a large, warm, sunny enclosure with a deep substrate and strong light and UVB. It is shy and nervous and is best suited to keepers with some experience.

Família: Teiidae

DADOS PRINCIPAIS

O ANIMAL

Tamanho adulto	**40-50 cm** comprimento total com a cauda
Peso	**60-70 g**
Longevidade	**3-5 anos**
Ativo	**De dia**
Estilo de vida	**Terrestre e escavador**
Habitat	**Savana, floresta seca e floresta tropical**
Dificuldade	**Intermediário**

CUIDADOS

Terrário mín.	**150 × 70 × 60 cm** C × L × A para 1 adulto
Temperatura, dia	**25-30 °C**
Ponto quente	**40-45 °C**
Temperatura, noite	**20-24 °C**
Umidade	**50-70%**
Água	**Recipiente de água**
UVB	**Essencial** Zona de Ferguson 3
Alimentação	**Insetos, frutas, vertebrados e minhocas/caracóis**
Mantido	**Sozinho**

REPRODUÇÃO

Reprodução	**Ovíparo**
Tamanho da postura	**3-11 ovos**
Posturas por ano	**1-3**
Incubação	**140-160 dias** a 27-30 °C

PROTEÇÃO E DOCUMENTAÇÃO

CITES	**Não listado**
Anexo da UE	**Não listado**
IUCN	**Menos preocupante (LC)**

Resumo dos cuidados

O TERRÁRIO

Ameiva ameiva is an active digging and running lizard that needs far more space than its body size suggests. One animal needs an enclosure of at least 150 × 70 × 60 cm (length × width × height).

TEMPERATURA

By day the enclosure should be 25-30 °C.

UMIDADE E ÁGUA

The humidity is 50-70 %. The figure is derived from the habitat, because the husbandry literature gives no precise values. Keep part of the substrate dry and part slightly damp, not wet. Forest animals benefit from a damp hide box.

ILUMINAÇÃO E UVB

Ameiva ameiva is a diurnal sun-worshipper, so the enclosure needs strong light and UVB. Use a T5 tube for Ferguson zone 3 above the basking spot and a spotlight for the heat.

ALIMENTAÇÃO

Ameiva ameiva is omnivorous, but the diet consists mostly of animal food. Offer a wide range of insects: crickets, grasshoppers, cockroaches, mealworms, silkworms and earthworms, preferably gut-loaded.

COMPORTAMENTO E MANUSEIO

Ameiva ameiva is fast, wary and nervous and flees at the slightest disturbance. For the first few weeks the animal needs peace and many hiding places before it begins to show itself.

ÁREA DE OCORRÊNCIA NATURAL

Colômbia, Venezuela, Guiana, Suriname, Guiana Francesa, Brasil, Bolívia, Equador, Peru, Argentina, Paraguai e Trinidad e Tobago.
